For two years he made return of the amount of his: income, upon which the assessed tax accepted such payment such action was conclusive on the part of the government. #### CATTLE-RAISING IN NEVADA.

Yesterday we printed an interesting letter relative to cattle-raising in l'exas, where the business has been carried on for many years, and now forms the leading industry of the State. It is estimated that on an average the Texas stock-raiser pockets about 25 per cent, per annum on his capital. Yet while Texas furnishes many of the States in the Union with cattle, there is probably no meat to be found anywhere so scraggy tough and utterly unadapted to table use as Texas beet. Nevals is excellently adapted for a stock-raising State, and the industry is rapidly growing in importance. The valleys and canyons of Eastern Nevada afford fine pasturage for animals. They thrive in this State at times when the grass in California is withered with prolonged drouth. Stock-raisers are beginning to realize the advantages to be found here for the production of an excellent quality of beef, while the facilities for transportation are much better than are enjoyed in Texas. Practical men predict that the time will come when the money made by cattle-raising in Nevada will excel the product of our mines. Va. Chronicle 22d.

### The Paneer Picule.

The Pioneer Piccio came off yesterday at l'armer freac'way's ranch, Carson, and was an immense success. From the Virginia end of the road thirt -six ears crowded with people, attended it, while all of Carson and a car-lead from Reno swelled the attendance to a multitude. The feature of the occasion was the target shooting between the picked teams of seven soldier companies, each team consisting of ten men. After a well contested match the National Guards of Virginia were aw erded the beautiful prize medal, put up by the Pioneers. The dancing hall was crowded, and the happy dancers kept time to music furnished by the best bands in the State-Varney's, Washington (fuards' and National Guards'. The entire affair was one of pleasure, and all concerned are entitled to

The Co. are now paying out about \$70,000 per month to carry on its work. It helps Re no more than a little.

## Going to the War.

Co. Co. A. from Camp Bidwell, is expected to arrive here to-day, on the war path. Co. F, of Klamath, is one of the five, and the remaining two are now at Winnemucca awaiting the arrival of the others.

In the ordinary course of domestic economy, as well as the daily transactions in "life," the great question is to secure the most for the least money. This problem has been effectually solved by the clothing house of Cohn & Isaacs. This leading firm since their arrival, have, by selling first-class goods, and no auction trash, at extremely low Iron Frame Mower, B - - - \$120 prices, created a revolution in the trade of Reno. The continuance to hal nothing to do with the affair. sell their goods lower than any other house is the "master motive" of the appreciation of their efforts by the public. The goods are now "marked out," au lall can see.

THEN IND Now .- One year since prescriptions were from 75 cents to six dollars. To-day the same class of prescriptions range from 25 cents to three dollars. This unexampled reduction in price being caused by the estal lishing of Hoole's Pharmacy, whose successful opposition to imposition and extortion places the establishment in the front rank of family drug stores and the leading prescription store of our town being an ample reward for our honest endeavors in the interest of the public and the building up of a trade based upon fair and legitimate profits. A. J. CLARK yesterday received Thanking the discriminating public satisfaction to all. S. F. Hoole.\*

The success of Osburn & Shoemaker is due to careful attention to their legitimate business and fair dealing with those who favor them with their custom. Assertions are cheap, don't cost a cent, not even reputation in some cases, facts alone are incontrovertable.
